

Pin connection diagram for the ATmega328P microcontroller. The diagram shows two rows of pins. The top row (pins 1-14) are labeled: D10, MOSI, MISO, SCK, A0, A1, A2, A3, A4, A5, RST, GND, VIN, and TX. The bottom row (pins 15-28) are labeled: J2, J3, D9, D8, D7, D6, D5, D4, D3, D2, GND, RX, and TX. A +3.3V supply is connected to pins 11 and 13. A GND connection is shown at pin 12.
